

P R I M A G E N C Y Inc.

Primagency's Law Firm practice group is organized to meet the complex needs presented by the Law Firm marketplace today. We understand firm economics, the pressures of competition, the client-lawyer relationship, and your need to add ancillary services or profit centers – despite regulatory restrictions that make 'life beyond the billable hour' hard to achieve.

Law Firms *"beyond the billable hour"*

Our Origination Partner Program for Law Firms is designed to accommodate all the issues of your marketplace. Through the program, we develop corporate finance and restructuring solutions with you to meet the financing needs of your small to mid-cap or middle-market clients.

We partner with your firm to seamlessly provide expert loan transaction underwriting and placement services for your clients – a business function that falls outside your firm's core capability, but is a critical – and profitable – value-add to your firm's economics, and client relationships.
